Serial No: 76/136,255  
**I2I (Stylized)** Trademark Opposition  
Our File: 020431.1194

Honorable Commissioner:

Enclosed please find an Original and one copy of a *Notice of Opposition* in the above-referenced trademark opposition. Also enclosed is our check number 116801 in the required amount of \$300.00 for the filing of the Notice of Opposition. Please charge any fees or post any refunds to Baker Botts, L.L.P.'s Deposit Account 50-2147/ 020431.1194 in the event it becomes necessary.

Please acknowledge receipt of this document by stamping and returning the enclosed postage paid, self-addressed postcard. Your attention to this matter is greatly appreciated. If you have any questions concerning the enclosed, please do not hesitate to contact me.

Very truly yours,

Christopher W. Kennerly

**NOTICE OF OPPOSITION**

Opposer, i2 TECHNOLOGIES US, INC., a Nevada corporation, ("Opposer"), having a principal place of business at 11701 Luna Road, Dallas, Texas 75234, believes that it will be damaged by registration of the mark I2I (Stylized) (the "Opposed Mark") shown in Application Serial No. 76/136,255, and hereby opposes that application.

As grounds for its opposition, Opposer alleges:

1. Applicant Maverick Technologies Holdings, LLC ("Applicant") seeks registration of the Opposed Mark, Application Serial No. 76/136,255, for use in connection with "engineering and consulting services in the fields of information technology, automation, manufacturing and electronic business, namely, scope development; front-end engineering; project estimation; bid-package development; engineering project management; enterprise resource planning systems; manufacturing plant documentation for operations, maintenance, engineering, service, and training departments; PLC/DCS/HMI specification/development/configuration; P and ID design/development; control narrative definition; detailed electrical instrumentation design; electrical instrument specification, evaluation, and procurement; electrical area classification; high-, medium- and low-voltage

power distribution design/implementation; hardwired safety interlock design; software safety interlock design; electrical heat trace design; electrical control cabinet construction; control cabinet design and layout; network design and layout; computer networking and system architecture design and implementation; internet and extranet website drafting, design and development; process simulation/customer acceptance; SQL/custom database design/configuration; report generation; visual basic development; on-site checkout/startup," in International Class 42. Applicant filed Application Serial No. 76/136,255 on September 27, 2000, alleging that Applicant began using the I2I (Stylized) mark in commerce in January, 2000.

2. At least as early as March of 1994, before Applicant filed its application to register the Opposed Mark, or began using that mark, Opposer began using the mark I2 on and in connection with, among other things, computer software, installation of computer software, and computer programming for others, all related to managing communications between businesses over computer networks, including the Internet.

3. Opposer owns incontestable Registration No. 2,072,090 for the mark I2 for use on and in connection with "computer software for use in constraint optimization and the planning and scheduling of resources; installation of computer software; computer programming for others; updating and de-bugging of computer software." This mark registered on June 17, 1997 and has been continuously used by Opposer since its adoption in March of 1994. Pursuant to 15 U.S.C. § 1057(c), Opposer enjoys nationwide priority in the mark I2 as of its application filing date of January 21, 1994. Information regarding this registration is attached hereto as **Exhibit A.**

4. Opposer also owns incontestable Registration No. 1,943,519 for the mark I2 TECHNOLOGIES & Design, for use on and in connection with "computer software for manufacturing, planning, and scheduling; installation, maintenance, and repair of computer software; and computer programming for others." This mark registered on December 26, 1995, and has been continuously used by Opposer since its adoption in April of 1994. Pursuant to 15 U.S.C. § 1057(c), Opposer enjoys nationwide priority in the mark I2 TECHNOLOGIES &

Design as of its application filing date of May 13, 1994. Information regarding this registration is attached hereto as **Exhibit B**.

5. Opposer also owns Registration No. 2,508,786 for the mark I2, for use in connection with "providing business-to-business information and facilitating e-commerce transactions on a wide variety of topics via the global computer network and specifically focusing on optimized supply planning, demand forecasting, inventory policy and control, production scheduling, ordering, purchase planning, and distribution planning; and business consultation services in regard to the same." This mark registered on November 20, 2001 and has been continuously used by Opposer since its adoption on September 22, 1998. Pursuant to 15 U.S.C. § 1057(c), Opposer enjoys nationwide priority in the mark I2 as of its application filing date of December 14, 1999. Information regarding this registration is attached hereto as **Exhibit C**.

6. Opposer has continuously and extensively used the marks identified in paragraphs 3 - 5 above, and in the attached Exhibits A - C (hereinafter, collectively, the "I2 Marks") on its goods and in connection with its services in interstate commerce, beginning with the date of adoption of each I2 Mark, and continuing uninterrupted until the present time.

7. Opposer's priority in the I2 Marks precedes the earlier of Applicant's filing date for and first use of the Opposed Mark.

8. Opposer has expended considerable sums of money developing its "I2" products and services, and in advertising, promoting and marketing the I2 brand.

9. Due to Opposer's extensive distribution, sales, and advertising of its goods and services provided under the I2 Marks, these marks have acquired extensive goodwill and consumer recognition throughout the United States, and "I2" has become known throughout the United States as an indicator of the goods and services provided by Opposer.

#### **Count I - Likelihood of Confusion**

10. Opposer hereby incorporates and realleges the allegations contained in Paragraphs 1-9 of this Notice of Opposition.

11. Applicant's mark I2I (Stylized) is virtually identical to Opposer's I2 Marks, or the dominant portion of Opposer's I2 Marks, in sight, sound and commercial impression. Opposer's I2 Marks and the Opposed Mark are used in connection with related goods and services. Therefore, Applicant's mark is likely to cause confusion, or to cause mistake, or to deceive.

12. On information and belief, Applicant's services are or will be advertised and offered in the same or similar channels of trade to the same customers through which Opposer currently distributes its various goods and services under Opposer's I2 Marks. Accordingly, Applicant's use of the Opposed Mark in connection with engineering and consulting services in the fields of information technology, automation, manufacturing and electronic business, is likely to cause consumers to be confused, deceived, or misled into the mistaken belief that Applicant's services emanate from, are affiliated with, or are otherwise related to Opposer, when in fact they are not.

13. For the foregoing reasons, the Opposed Mark is likely to cause confusion, or to cause mistake, or to deceive.

14. Thus, Opposer will be damaged and harmed by the use and registration of the Opposed Mark.

#### **Count II - Dilution**

15. Opposer hereby incorporates and realleges the allegations contained in Paragraphs 1-14 of this Notice of Opposition.

16. Applicant's use and registration of the Opposed Mark will lessen the capacity of Opposer's famous and distinctive I2 Marks to distinguish and identify Opposer's services from those of others, thereby diluting the distinctive quality of said famous and distinctive marks in violation of 15 U.S.C. § 1125(c). Accordingly, pursuant to Section 2 of the Trademark Amendments Act of 1999, Applicant's alleged mark is not entitled to registration.

**WHEREFORE**, Opposer prays that Application Serial No. 76/136,255 be rejected, that no registration be issued to Applicant, and that this opposition be sustained in favor of Opposer.

This Notice of Opposition is being submitted in duplicate along with the requisite \$300.00 fee. Please charge any additional fees required to Deposit Account No. 50-2147 of Baker Botts L.L.P.

Respectfully submitted,

By:

## i2 TECHNOLOGIES US, INC.

Opposer,

**VS.**

MAVERICK TECHNOLOGIES  
HOLDINGS, LLC

Applicant.

Opposition No. \_\_\_\_\_

In the matter of:

Application Serial No. 76/136,255  
Mark: I2I (Stylized)

Filed on September 27, 2000

Published in the Official Gazette  
on April 1, 2003

Opposer, i2 TECHNOLOGIES US, INC., a Nevada corporation, ("Opposer"), having a principal place of business at 11701 Luna Road, Dallas, Texas 75234, believes that it will be damaged by registration of the mark I2I (Stylized) (the "Opposed Mark") shown in Application Serial No. 76/136,255, and hereby opposes that application.

As grounds for its opposition, Opposer alleges:

1. Applicant Maverick Technologies Holdings, LLC ("Applicant") seeks registration of the Opposed Mark, Application Serial No. 76/136,255, for use in connection with "engineering and consulting services in the fields of information technology, automation, manufacturing and electronic business, namely, scope development; front-end engineering; project estimation; bid-package development; engineering project management; enterprise resource planning systems; manufacturing plant documentation for operations, maintenance, engineering, service, and training departments; PLC/DCS/HMI specification/development/configuration; P and ID design/development; control narrative definition; detailed electrical instrumentation design; electrical instrument specification, evaluation, and procurement; electrical area classification; high-, medium- and low-voltage

power distribution design/implementation; hardwired safety interlock design; software safety interlock design; electrical heat trace design; electrical control cabinet construction; control cabinet design and layout; network design and layout; computer networking and system architecture design and implementation; internet and extranet website drafting, design and development; process simulation/customer acceptance; SQL/custom database design/configuration; report generation; visual basic development; on-site checkout/startup," in International Class 42. Applicant filed Application Serial No. 76/136,255 on September 27, 2000, alleging that Applicant began using the I2I (Stylized) mark in commerce in January, 2000.

2. At least as early as March of 1994, before Applicant filed its application to register the Opposed Mark, or began using that mark, Opposer began using the mark I2 on and in connection with, among other things, computer software, installation of computer software, and computer programming for others, all related to managing communications between businesses over computer networks, including the Internet.

3. Opposer owns incontestable Registration No. 2,072,090 for the mark I2 for use on and in connection with "computer software for use in constraint optimization and the planning and scheduling of resources; installation of computer software; computer programming for others; updating and de-bugging of computer software." This mark registered on June 17, 1997 and has been continuously used by Opposer since its adoption in March of 1994. Pursuant to 15 U.S.C. § 1057(c), Opposer enjoys nationwide priority in the mark I2 as of its application filing date of January 21, 1994. Information regarding this registration is attached hereto as **Exhibit A**.

4. Opposer also owns incontestable Registration No. 1,943,519 for the mark I2 TECHNOLOGIES & Design, for use on and in connection with "computer software for manufacturing, planning, and scheduling; installation, maintenance, and repair of computer software; and computer programming for others." This mark registered on December 26, 1995, and has been continuously used by Opposer since its adoption in April of 1994. Pursuant to 15 U.S.C. § 1057(c), Opposer enjoys nationwide priority in the mark I2 TECHNOLOGIES &

Design as of its application filing date of May 13, 1994. Information regarding this registration is attached hereto as **Exhibit B**.

5. Opposer also owns Registration No. 2,508,786 for the mark I2, for use in connection with "providing business-to-business information and facilitating e-commerce transactions on a wide variety of topics via the global computer network and specifically focusing on optimized supply planning, demand forecasting, inventory policy and control, production scheduling, ordering, purchase planning, and distribution planning; and business consultation services in regard to the same." This mark registered on November 20, 2001 and has been continuously used by Opposer since its adoption on September 22, 1998. Pursuant to 15 U.S.C. § 1057(c), Opposer enjoys nationwide priority in the mark I2 as of its application filing date of December 14, 1999. Information regarding this registration is attached hereto as **Exhibit C**.

6. Opposer has continuously and extensively used the marks identified in paragraphs 3 - 5 above, and in the attached Exhibits A - C (hereinafter, collectively, the "I2 Marks") on its goods and in connection with its services in interstate commerce, beginning with the date of adoption of each I2 Mark, and continuing uninterrupted until the present time.

7. Opposer's priority in the I2 Marks precedes the earlier of Applicant's filing date for and first use of the Opposed Mark.

8. Opposer has expended considerable sums of money developing its "I2" products and services, and in advertising, promoting and marketing the I2 brand.

9. Due to Opposer's extensive distribution, sales, and advertising of its goods and services provided under the I2 Marks, these marks have acquired extensive goodwill and consumer recognition throughout the United States, and "I2" has become known throughout the United States as an indicator of the goods and services provided by Opposer.

#### **Count I - Likelihood of Confusion**

10. Opposer hereby incorporates and realleges the allegations contained in Paragraphs 1-9 of this Notice of Opposition.

11. Applicant's mark I2I (Stylized) is virtually identical to Opposer's I2 Marks, or the dominant portion of Opposer's I2 Marks, in sight, sound and commercial impression. Opposer's I2 Marks and the Opposed Mark are used in connection with related goods and services. Therefore, Applicant's mark is likely to cause confusion, or to cause mistake, or to deceive.

12. On information and belief, Applicant's services are or will be advertised and offered in the same or similar channels of trade to the same customers through which Opposer currently distributes its various goods and services under Opposer's I2 Marks. Accordingly, Applicant's use of the Opposed Mark in connection with engineering and consulting services in the fields of information technology, automation, manufacturing and electronic business, is likely to cause consumers to be confused, deceived, or misled into the mistaken belief that Applicant's services emanate from, are affiliated with, or are otherwise related to Opposer, when in fact they are not.

13. For the foregoing reasons, the Opposed Mark is likely to cause confusion, or to cause mistake, or to deceive.

14. Thus, Opposer will be damaged and harmed by the use and registration of the Opposed Mark.

### **Count II - Dilution**

15. Opposer hereby incorporates and realleges the allegations contained in Paragraphs 1-14 of this Notice of Opposition.

16. Applicant's use and registration of the Opposed Mark will lessen the capacity of Opposer's famous and distinctive I2 Marks to distinguish and identify Opposer's services from those of others, thereby diluting the distinctive quality of said famous and distinctive marks in violation of 15 U.S.C. § 1125(c). Accordingly, pursuant to Section 2 of the Trademark Amendments Act of 1999, Applicant's alleged mark is not entitled to registration.

**WHEREFORE**, Opposer prays that Application Serial No. 76/136,255 be rejected, that no registration be issued to Applicant, and that this opposition be sustained in favor of Opposer.

This Notice of Opposition is being submitted in duplicate along with the requisite \$300.00 fee. Please charge any additional fees required to Deposit Account No. 50-2147 of Baker Botts L.L.P.

Respectfully submitted,
